Narration: from the podium _____ from the projector _____ Narration on tape (describe) _____

Technical Information

For the Ektagraphics with Brackett Auto-Synch II dissolve, 1000 Hz pulse signal will be needed. Other synch/dissolve equipment must be provided by presenter.

Medium Format: This year, we will support medium format (2 1/4 x 2 1/4 x 2) presentations. Equipment provided will be an array of 4 Rollei P11 projectors. Presenters may set up for 2-machine sequential or 4-machine dissolve projection. These projectors work best with Gepe glassed slides, closed in a Gepe slide press. Other mounts may work and can be tried. A Gepe MF slide press will be available for presenters to use. Extra European style 30-slide trays will be available on a limited, shared basis for use by presenters. If you plan to use the provided trays please observe conventional thumbspotting protocol (Red for left image, Green for right).

Medium Format is being tried at Buffalo 2001 on an experimental basis. Participation need not rise to the level of polished, professional shows, although these will be welcomed. Please contact the Stereo Theatre Chairman, below, for further information.

PROPOSAL DEADLINE: MAY 1, 2001

submit proposal to:

Richard Twichell, chmn, Stereo Theatre

1224 Genesee St.

Rochester, NY 14611
